- Gwalior M.P.

SKILLS

- Data Structures & Algorithms
- Java
- Spring boot
- C, C++
- DBMS
- HTML, CSS, JS
- React Js, Next Js, Node Js
- Redux
- BootStrap
- Tailwind Css
- MUI
- MongoDB
- Git, Github

SOFT SKILLS

- Observation
- Decision making
- Communication
- Multi-tasking

HOBBIES

- Travelling
- Cooking

EDUCATION

- **Madhav Institute Of Technology & Science Gwalior (M.P.)**
B.Tech (CSE) CGPA - 8.71
Oct 2020 - June 2024
- **Adharsheela Global School Ghaziabad**
Senior Secondary Education
Percentage - 91.4
Jul 2017 - May 2019

ABOUT ME

Enthusiastic and dedicated Software Engineer with foundational knowledge in Java, Spring Boot, React.js, HTML, CSS, and JavaScript. Recently graduated with a Bachelor's degree in Computer Science Engineering, eager to leverage academic training and practical projects to contribute to innovative software solutions. Skilled in developing and debugging code, with a keen eye for detail and a commitment to writing clean, efficient code. Proven ability to work collaboratively in team environments, communicate technical concepts effectively, and adapt quickly to new technologies and methodologies. Seeking to bring a proactive and motivated approach to a dynamic software development team.

WORK EXPERIENCE

Software Developer Trainee

NEWGEN SOFTWARE

Jan 2023 - Present

- Developed robust RESTful APIs using Java and Spring Boot.
- Collaborated with senior developers to design and implement scalable solutions, gaining hands-on experience in software architecture and best practices.
- Demonstrated proficiency in troubleshooting and debugging, ensuring the reliability and performance of APIs under varying loads and conditions.

React Js Developer

KYLO APPS

June 2023 - Dec 2023

- Developed responsive and user-friendly websites and web applications using React.js, ensuring a seamless user experience across various devices and browsers.
- Implemented state management using Redux and context API, enhancing application performance and maintaining clean and efficient code.
- Collaborated closely with UI/UX designers and backend developers to integrate frontend components with backend APIs, ensuring seamless data flow and functionality.

PROJECT

Personality Detector

- Developed a React.js web application integrating ChatGPT APIs to analyze user-provided basic information, generating personalized personality insights through natural language processing.
- Designed and implemented an intuitive user interface for input collection and data processing, ensuring seamless interaction and accurate personality assessments.
- Optimized algorithms to interpret user data effectively, delivering comprehensive personality reports that aid users in understanding their behavioral tendencies and preferences.
